

A City of Lights
Concept One

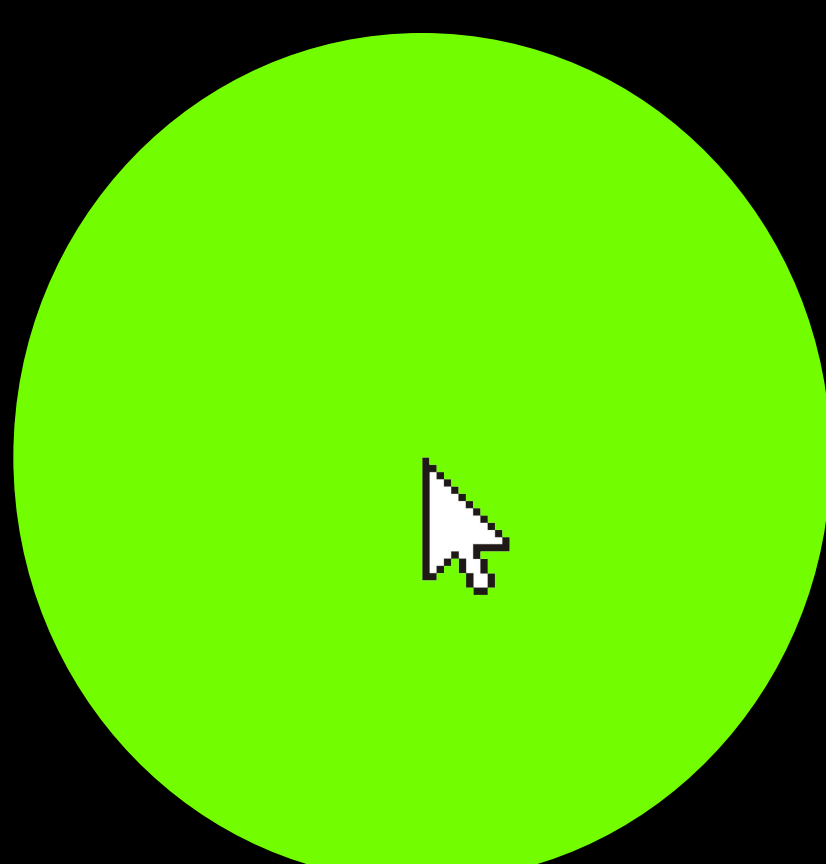

A City of Lights
Concept Two

The website only opens when the sun goes down and you see the city of lights, New York through light and not form.

17:24

Move the mouse up and slide into different perceptions of the view. At the according times of the day when you enter the website you will see the view of lights.

If you slide down you return the center box. As soon as the time that the sun rises the website will close again.

Aw, Snap!
